

— BECOME AN AXCESS — **BUSINESS PARTNER**

Want to add value to your business?

Here's 5 good reasons why you should become an Axxess Business Partner

No Contracts or Monthly Minimums

Benefit from month to month services without binding long term commitments

Multiple Services

Access to multiple partners through our extensive networks for 5G, Fibre, LTE and Hosting

Instant Activation

Self provision - Flexibility to activate your LTE SIM cards as and when needed

Control Panel

Manage your client services with your personalised control panel

Support & Assistance

We support you via our Call in Centre, Live Chat and WhatsApp Messaging

BEST PRICE. BEST NETWORK. SIMPLIFIED.

Vodacom Fixed LTE

Simplify your home or home-office connectivity with Vodacom Fixed LTE - it's affordable and easy to self-install, without the need for any fixed lines.

Benefits & Features

Wide Network Coverage

Vodacom offers one of the widest available networks in South Africa, which means you'll find coverage almost everywhere.

Cost-effective and reliable

Experience fast, consistent and reliable connectivity without breaking the bank.

1 Month Data Rollover

If you don't use it, you won't lose it. Any unused Anytime data rolls over for one month, so you can bank your unused data and use it later.

Quick to Set Up

Don't wait around for an installation. As soon as your LTE router is delivered and your service is activated, you'll have Internet connectivity.

No Contracts

You're not obligated to stay with us, but we are sure you'll want to.

Uncapped Vodacom Fixed LTE

Vuma Reach Payment Process

Monthly Packages

A payment card is required to set up your monthly payment.

We'll automatically deduct your service fee each month, so you don't have to worry about remembering to pay manually.

Prepaid Packages

This is a pay-as-you-go option.

You'll need to make a payment every 30 days to stay connected.

We offer several convenient ways for you to pay.

How Vuma Reach Billing Works

We provide provide simple, flexible billing options

Monthly Billing

Initial Purchase

When you first buy the service, you pay the full monthly price. This covers your first full month of service.

First Renewal

On your first renewal, you'll pay a pro rata (partial) amount to cover the days from your activation date to the start of your regular billing cycle.

Ongoing Renewals

After that, you'll be charged the full monthly price on a regular schedule.

Prepaid Voucher

30 Days of Service

Each voucher provides 30 days of service, starting from the day your service is installed and activated by Vuma Reach.

Initial Activation

Your first 30 days start automatically when your service is activated, as the first voucher is automatically redeemed.

Additional Vouchers

Any extra vouchers you buy will add another 30 days each.
You can buy up to 6 vouchers at a time:
1 voucher = 30 days
3 vouchers = 90 days
6 vouchers = 180 days

Keep Your Service Active

To avoid service suspension, make sure to buy new vouchers before your current voucher window ends.

Email Only Hosting

Save costs, while maintaining a professional image. Take advantage of the benefits of your domain by creating custom email addresses using our Email Only Hosting.

Benefits & Features

Unlimited Traffic

No need to upgrade when your bandwidth usage exceeds the package limit.

Free Webmail

Access your email online via Squirrelmail, Horde and Roundcube webmail software

Managed VPS Hosting

Take the stress out of managing your server with a Managed VPS from Axxess. Perfect for businesses and individuals alike, this service provides a powerful, user-friendly VPS hosting solution. With 24/7 monitoring and expert management, your server will be optimized and maintained, ensuring your websites and applications run smoothly around the clock.

Benefits & Features

Fully Managed Support

Our expert team takes care of all the technical heavy lifting, including updates, security patches, and server optimization.

Ultra-Fast SSD Storage

SuperMicro hardware and Samsung Enterprise SSD hard drives are used, delivering high-performance storage capabilities.

Private Networking

Interconnect your Axxess VPS Hosting instances together on our secure Private Network which offers unmetered bandwidth.

IPv4 & IPv6 Connectivity

Be prepared for the future of the internet with Axxess VPS. We provide both IPv4 and IPv6 connectivity, ensuring seamless compatibility regardless of the evolving standards.

Free Weekly Backups

We provide weekly data backups at no additional cost, ensuring restoration of your VPS Server in the event of a failure or system error.

Axxess Voice

CallTime allows you to make affordable VoIP calls to any telephone number in the world, and free calls to other Axxess Voice numbers, via your Internet connection.

Benefits & Features

3 Month Rollover

Any unused CallTime rolls over for 3 months, so you can bank your CallTime and use it later.

Zero monthly subscription costs

In comparison to traditional landline providers, Axxess Voice has no monthly line or rental fees.

Free calls to other Axxess Voice Numbers

Make free calls to anyone or any number on the Axxess Voice Network, anywhere in the world.

Keep your Geographic Number

Axxess Voice is a cloud-hosted service, that allows you to port your current Geographic Telephone Number to us and take it with you anywhere in the world.

Pure per Second Billing

No hidden costs, no underlying contracts. Stay in control and simply top-up your CallTime online.

Call Rates

Destination: LOCAL	Cost per minute
AXXESS VOICE numbers	FREE
Cell C / MTN / Telkom Mobile (8*ta) / Vodacom	R 0,69
Telkom Local / Telkom National	R 0,26

Destination: INTERNATIONAL	Cost per minute
<small>*Per second billing applies after minimum call rate</small>	
Australia	R 0,69
United Kingdom	R 0,27
USA	R 0,27

Visit our website to view or download the full list of Call rates for local and international.

How do I join the Revolution?

You can sign up on our website (www.axxess.co.za/business-partner)

Activation:

- Use your 6 digit account number (received at the end of the sign up procedure) as your payment reference.
- **Please note that a once-off signup fee of R999 is required to get started.** Also note that a positive account balance is needed in order to create new services.
- The Axxess shared realm (youradsl.co.za) is free and the custom realm (yourbusiness.co.za) costs R209 a month.
- Please remember to maintain a positive balance in your account before purchasing new services for clients.

The Axxess Revolution offers the following two options:

① AXXESS SHARED REALM

- Start-up is instant and services can be provisioned immediately.
- Get access to a white label control panel with your own branding.
- 24/7 support.

② AXXESS CUSTOM REALM

- To further personalise your adsl account, you can also customize your realm. So instead of your clients having usernames such as yourclient@youradsl, they can now have yourclient@yourbusinessname.co.za.
- Custom realms are available for capped and uncapped services (same realm can be used).
- Custom realms are available at R209/month (VAT incl.) and there is no setup fee. Should you wish to apply for custom realm, please e-mail realms@internet.co.za with your Account Number/Client Code. Then provide us with 2 realm names in order of preference (in case one has already been taken). Once we have received your request as well as the proof of payment for R209, the registration will be set in motion.
- The registration process takes between 1-2 weeks to complete.
- Existing Realm: This can be transferred to Axxess. The process will take approximately 1-2 weeks.
- Get access to a white label control panel with your own branding.
- Custom invoicing can be set up so your client receives an invoice from you and not from Axxess.
- 24/7 support.
- You will be notified once your custom realm has been activated.
- Please note that failure to pay the monthly subscription fee of R209 will result in the suspension of the realm.
- Clients must give us a calendar months' notice on cancellation of a realm. Cancellations for realms must be sent to realms@internet.co.za
- API is available. For more information email resellerapi@internet.co.za

3 IMPORTANT INFORMATION

- Axxess is not a credit provider and therefore does not extend credit, but works on a principle of available credit payments made in favour of future purchases). Payments accepted by EFT (Electronic Funds Transfer) only.
- Services run on a month-to-month basis, month being the 1st to the last day of every month. You need to ensure that the available credit will be sufficient to cover the renewal balance before the 1st of every month. Proof of payment needs to be sent to payments@internet.co.za in order to be captured. Failure to do so will result in all the service being suspended until payment is received.
- Cancellation of services must be done via your Control Panel the month before cancellation is to take place. Example, cancel a service on the 10th of May for the 30th of June, service will not continue from the month of July.
- Service changes are only available on certain products and services within the same month; please check your Control Panel.
- ADSL Lines and Domain Names remain the property of your Client.
- Your pricing and products differ to those available on our website, please view available products and pricing in your Control Panel.
- Terms and Conditions for all products and services can be viewed here: <https://www.axxess.co.za/docs?tab=terms>
- The acceptable usage policy for related products and service can be viewed here: <https://www.axxess.co.za/docs?tab=terms#tc-10>
- All deliveries will be made to you and not your client.

Before adding Clients

You will need to change personal details, update your branding for your Client's Control Panel and the Invoices, adjust your Pricing Structure, Invoice Configuration, and copy the Login Code to your web page.

What are you waiting for?

Visit www.axxess.co.za/business-partner to join the Revolution or call the support desk on 087 821 1100. If you need any further information please feel free to email businesspartner@internet.co.za
